Name of FTJA: _____

Definition of Flexible Measurement Terms

Note: Where verbs express only the general level of learning for knowledge and understanding, this is intended to provide greater flexibility for measurement in observable ways. When determining achievement of learning, use the appropriate observable action for the assessment.

I. Know: The ability to retrieve information from memory.

Actions used to assess knowing include: recall, list, state, identify, reproduce, and recognize.

II. Understand or Comprehend: Connecting existing with new information and experience to form meaning and relate concepts to other situations.

Actions used to assess understanding include: explain, summarize, defend, generalize, give examples, give analogies, and paraphrase.

III. Review: Reading and examining a reference sufficient to grasp its meaning and the principle issue(s).

Actions used to assess a sufficient review include: explain, summarize, discuss, and generalize.

Core Competencies
